ABOUT THE COMPANY

At Point One International, we believe doing business has no borders. Our two divisions—North America Market Entry and International Sourcing—provide full-service solutions for our customers to succeed internationally.

Our North America Market Entry (NAME) division specializes in expanding high quality, emerging consumer brands into the North American Market. We act as your “boots on the ground” in North America, providing a holistic approach and localized resources to achieve long-term success. For our 3PL+ customers, NAME services are typically a secondary phase once a brand is ready to pursue the brick-and-mortar business.
